The Mental Health Moment

We are facing a staggering global mental health crisis that impacts every person, family, and business. In the US alone, we are losing four times as many people every year to the twin scourges of suicide and drug overdose as we lost to HIV at the peak of the AIDS epidemic. Worldwide, the leading cause of death for teenage girls is no longer child birth — it's suicide. Craig will highlight how one company, Johnson & Johnson, is helping to lead the transformation of mental health care for the estimated 50% of us who live with mental illness, either as a patient or as a caregiver. The goal is to empower each of us to be a leader in our own families and communities.

To RSVP for one or both events, please email vvanselous@trinitycounseling.org by April 29, 2019. Seats are limited.
